

CREATING INDIVIDUAL TECHNOLOGIES

The background of the lower half of the image is a photograph of an industrial factory. It shows various pieces of machinery, including conveyor belts, pipes, and robotic arms. The image is overlaid with a semi-transparent green filter. The text "YOUR PARTNER FOR INNOVATIVE SOLUTIONS" is written in white, bold, sans-serif capital letters across the middle of the image.

**YOUR PARTNER FOR INNOVATIVE
SOLUTIONS**

**INSULATION
TECHNOLOGIES**

www.albatools.com

Alba is an internationally active and recognized technology provider. We also offer competent and flexible solutions of the highest quality in the field of insulation technology from planning to implementation. Alba develops innovative systems for all requirements.

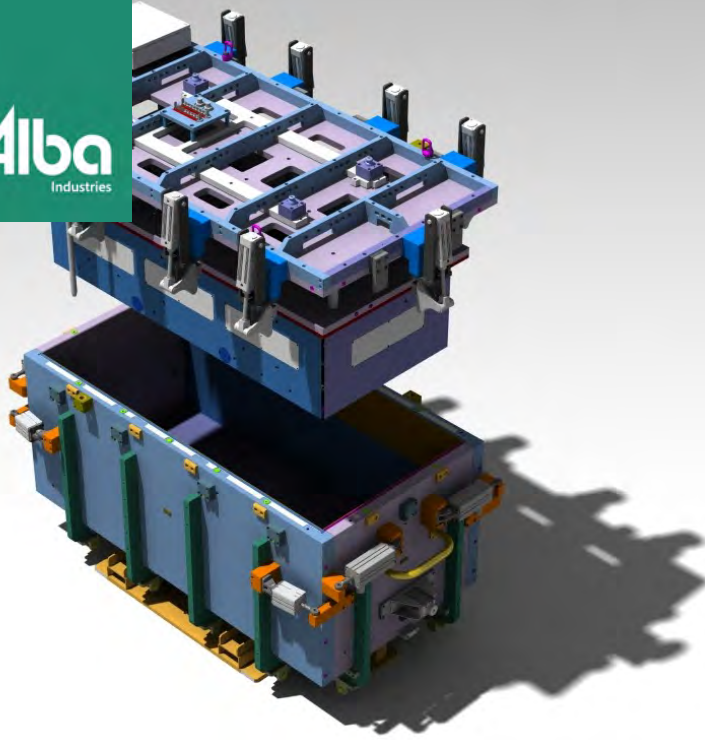

AREA OF APPLICATION

- | **Construction industry**
- | **Automotive industry**
- | **Medical fields**
- | **Rail vehicles**
- | **Transport industry**
- | **Aviation**

OUR USP'S

- | **In-house construction of moulded foam parts incl. tools**
- | **Versions with fire protection possible**
- | **Mechanical protection can be represented (flooding with a compact PU system)**
- | **Combination with thermal and sound insulation possible**
- | **PU foam hardness, density and insulation adjustable**
- | **Prototypes available within one month**

INSULATION TECHNOLOGY

As partner of renowned production companies, we have many years of experience in the field of insulation technology. We meet the highest standards in terms of precision, quality and adherence to deadlines. The concept of ecology has a high priority in our daily work.

BENEFITS

- | Economic production processes
- | Technical support for component construction
- | Design and construction according to individual customer requirements
- | Products for energy-saving applications

PRODUCT PORTFOLIO

- | Foam and support tools
- | Turnkey production solutions
- | Upstream and downstream processes possible (surface treatment, punching etc.)
- | Prototyping
- | Own technical center for in-house production

Thanks to our many years of know-how and our high density of in-house production, we have the opportunity to manufacture first prototype tools at very short notice.
